My Favorite Film

A. Read.

I went to the movie theater with my family last night. We bought tickets, popcorn, and soda at the counter before the movie started. The movie was an animated musical called "Where Is My Home?"

The setting is the ocean and the characters are all sea animals. The animation is bright and colorful. Some famous actors, actresses, and singers are the voices of the characters.

The main character is a hermit crab called Carly. She is too big for the shell she lives in now, so she has to find a new home. She searches the ocean floor for different objects that she can make her home from until she finds the right one. Along her journey, she meets some friendly characters and some frightening ones, too. The scariest character is Olly. He's an octopus that tries to eat Carly!
